Typografie — Baloo 2

Baloo 2 (Google Fonts, 400–800) over de hele site. Chunky en rond, passend bij het wordmark. Fallback: Plus Jakarta Sans.

HEADING · 800 · DESIGN GROEN

Eén strip. Nul plastic.

TWO-TONE HEADING (TIERELIER)

Werkt als een
tierelier.

EYEBROW · 600 · UPPERCASE · ORANJE MET ROZE STREEPJES

— WAAROM TABBLIE? —

BODY · 400-600 · #182D20

Strip erin, opgelost, klaar — geen afmeten, geen plastic, geen rommel. Gewoon schone was, elke keer weer.

PRIMAIRE CTA · SOLID ORANJE · WIT 800

Kies voor Tabblie ♥

Beter voor de planeet. ♥

Brand Document

Tabblie — Brand Document

Version 2.0 / April 2026

1. Brand Overview

Brand Name: Tabblie (capital T, rest lowercase — always written "Tabblie", never "tabblie" or "TABBLIE") **Category:** Eco-friendly household cleaning products **Format:** Dissolvable strips (launch range) + cleaning tablets with reusable glass bottles (Phase 2) **Tagline (NL, primary):** "Schoonmaken, opnieuw uitgevonden." **Slogan (NL):** "Tabblie, kind kan de was doen." **Markets:** Netherlands & Belgium (primary), English planned later **Positioning:** Affordable, aesthetic, eco-friendly household products for everyone — not just the committed environmentalist.

2. Mission & Purpose

Tabblie exists to prove that eco-friendly doesn't have to mean expensive, ugly, or inconvenient.

We make switching to sustainable household products a no-brainer — better for the planet, better for your wallet, and actually something you want to display in your home.

The problem we solve: Most eco-friendly products fall into one of two traps: they look like they belong in a health food shop from 2003 (bland, brown, preachy), or they cost so much that only a niche audience can afford them. Tabblie breaks both patterns.

What we stand for: - The planet deserves better — and so do you - Sustainability should be the easy, affordable default — not a premium sacrifice - Good design and good values are not opposites - Everyone can make a difference, not just the hardcore eco crowd

3. Brand Positioning

	Tabblie	Traditional Eco Brands	Regular Brands
Price	Competitive / better than non-eco	Premium	Low-mid
Aesthetics	Vibrant, modern, playful	Utilitarian, "natural"	Generic
Audience	Everyone	Niche eco-conscious	Mass market
Feel	Exciting	Virtuous / preachy	Functional

Closest competitors for reference: - [Fussy](#) — tone & energy (cheeky, bold, design-led) - [The Lekker Company](#) — warmth, natural materials, Dutch roots - [Mother's Earth NL](#) — product category (strips), but Tabblie is more accessible & designed for everyone

4. Target Audience

Primary: Ages 22–42, design-conscious, urban/suburban, moderate eco-awareness. They care about the environment but won't sacrifice aesthetics or break the bank. They're not activists — they just want to make better choices without it being a whole thing.

Secondary: Families looking to reduce plastic waste without overhauling their entire lifestyle.

Who we are NOT for: The hardcore zero-waste community who already has everything figured out (though they're welcome too).

Audience mindset: *"I want to do better for the planet, but I'm not going to pay €25 for laundry detergent that comes in a hessian sack."*

5. Products

Phase 1 — Strips (Launch Range)

Product	Description	Packaging
Eco Friendly Laundry Strips	32 loads per pack	Kraft paper pouch
Eco Friendly Dishwasher Strips	32 loads per pack	Kraft paper pouch
Eco Friendly Toilet Strips	32 loads per pack	Kraft paper pouch

Pricing: ~€15–20 per pack (single), with subscription discount. **Packaging:** Kraft paper pouches — no plastic waste, fully biodegradable.

Phase 2 — Cleaning Tablets + Reusable Glass Bottles

Dissolvable cleaning tablets paired with a reusable glass spray bottle. Buy the bottle once, refill with tablets forever. Zero plastic. Cheaper than conventional cleaners.

Product	Identity Color	Hex
All-Purpose Cleaner	Tabblie Orange	#E8622A
Kitchen Cleaner	Sunny Yellow	#F5C842
Bathroom Cleaner	Soft Teal	#5BB8A0
Hand Soap	Blush Pink	#F2A0A0

Color system logic: - The Tabblie logo and brand typography appear in orange on every product — always - Each cleaning tablet product has its own identity color used on the label band and product accent — just like the kraft bags use orange on a neutral base, the glass bottles use orange branding on a colored label - This makes the range instantly navigable on a shelf or screen while keeping the brand cohesive

Pricing: Tablets cheaper than conventional (non-eco) cleaning products. **Purchase models:** One-time purchase + subscription (monthly/bi-monthly). **Packaging:** Cardboard tablet refill pack — no plastic waste. Glass bottle sold separately as a starter kit.

6. Color Palette

Primary Colors

Name	Hex	Usage
Tabblie Orange	#E8622A	Primary brand color, CTAs, logo, highlights
Warm Cream	#FDF6EE	Page backgrounds, cards — echoes kraft packaging
Deep Earth	#1F1209	Primary text, dark backgrounds

Secondary / Accent Colors

Name	Hex	Usage
Soft Teal	#5BB8A0	Accent, eco badges, secondary CTAs
Sunny Yellow	#F5C842	Playful highlights, tags, fun elements
Blush Coral	#F28C5E	Softer orange for hover states, gradients
White	#FFFFFF	Clean sections, product cards

Product Identity Colors (Phase 2 Tablets)

Product	Color Name	Hex
All-Purpose Cleaner	Tabblie Orange	#E8622A
Kitchen Cleaner	Sunny Yellow	#F5C842
Bathroom Cleaner	Soft Teal	#5BB8A0
Hand Soap	Blush Pink	#F2A0A0

Color Rules

- **Orange is always the brand anchor** — logo, typography, and icons appear in orange on every product and every page, no exceptions
- Each product has its own identity color for label backgrounds and product accents — orange brand elements sit on top
- Backgrounds should be warm cream (not cold white #FFFFFF) for most web sections
- Never use dark green as a primary — it reads as "typical eco brand"
- Product identity colors can be used as section backgrounds on product pages
- Text on orange backgrounds: always white
- Text on cream backgrounds: Deep Earth #1F1209

7. Typography

Fonts

Tabblie uses **one font across the entire site**: Plus Jakarta Sans (Google Fonts, weights 400/500/600/700 including italic 400/600). It powers both the `--heading-font-family` and `--text-font-family` CSS variables — no serif mix, no secondary display face.

Role	Font	Weight	Letter-spacing
Brand wordmark	Custom (bold grotesk) — PNG/SVG asset, not web font	—	—
Display / Hero headlines	Plus Jakarta Sans	600	−0.02em
Section H2	Plus Jakarta Sans	600	−0.02em
Body / UI text	Plus Jakarta Sans	400	0em
Eyebrow / uppercase labels	Plus Jakarta Sans	600–700	0.1em, uppercase
Small / caption	Plus Jakarta Sans	400–500	0.03em

Type Scale (live values — fluid with clamp())

Element	CSS
Page hero heading	<code>clamp(2.8rem, 6vw, 5.2rem)</code>
Section H2	<code>clamp(2.2rem, 4vw, 3.4rem)</code>
Newsletter heading	<code>clamp(2.6rem, 5vw, 4rem)</code>
Card H3	<code>clamp(1.25rem, 2vw, 1.5rem)</code>
Body	14–16px (16px on mobile to avoid iOS zoom)
Eyebrow	13px fixed

Line Heights

- Headings: `1.1` – `1.15` (tight, punchy)
- Body: `1.6` – `1.7` (generous, readable)

Typography Rules

- Brand name is always written **"Tabblie"** — capital T, rest lowercase. Never "tabblie" all-lowercase, never "TABBLIE" in caps.
- One typeface only (Plus Jakarta Sans) — do not introduce a second display face
- Body text: 16px minimum on mobile (prevents iOS zoom on input focus)
- Avoid weights below 400 — keeps accessibility strong
- Eyebrows are always uppercase with `0.1em` letter-spacing and orange fill

8. Tone of Voice

In one sentence: Tabblie talks like a witty, environmentally-aware friend — not a lecturer, not a corporation.

Personality Traits

- **Cheeky** — willing to poke fun at the status quo ("Who said eco had to be boring?")
- **Direct** — says what it means, no fluff
- **Inclusive** — invites everyone in, never guilt-trips
- **Optimistic** — focuses on possibility, not doom and gloom
- **Grounded** — honest about what the product is, no greenwashing

Tone Examples

Context	Don't say	Do say
Product headline	"Sustainable dishwasher detergent for the conscious consumer"	"Your dishwasher called. It wants strips."
Eco message	"Every purchase reduces your carbon footprint"	"32 loads. Zero plastic. You're kind of a big deal."
Subscription CTA	"Subscribe to our auto-replenishment service"	"Set it, forget it, save the planet."
About brand	"We are committed to sustainability"	"Eco doesn't have to be a personality. It can just be Tuesday."

Writing Rules

- Short sentences. Real words. No jargon.
- Humor is warm and inclusive — never at the customer's expense

- Never preach, shame, or use guilt as motivation
 - Eco credentials are facts, not virtue signals
 - Use "you" — speak directly to the person, not at an audience
-

9. Tagline & Slogans

Tagline (primary, NL): "Schoonmaken, opnieuw uitgevonden." **Slogan (NL):** "Tabblie, kind kan de was doen."

The tagline lives on the homepage hero; the slogan appears in packaging copy, the footer, and storytelling sections. Both are Dutch by default — English equivalents are only used if/when we localise.

Supporting copy lines (campaigns, hero sections, ads): - "*Scheur, gooi, klaar.*" (3-step mantra) - "*Eén strip vervangt één plastic fles.*" - "*Geen plastic, geen rommel, geen excuses.*" - "*32 wasbeurten. Nul plastic.*"

10. The Tabblie Environmental Initiative

Name: TBD (e.g. "The Strip Fund" / "Tabblie for Earth") **Commitment:** 10% of all profits go toward funding environmental initiatives **Focus:** Fighting plastic pollution (Plastic Soup) and broader environmental projects **Model:** Tabblie's own initiative — funding multiple external environmental organizations, not tied to one foundation

Key messages: - Every purchase directly funds real environmental action - Transparent — customers can see where money goes - Not a marketing gimmick — baked into the business model from day one

11. Visual Style Guidelines

Photography & Imagery

- **Bright, airy, natural light** — no dark moody shots
- Show products in real home settings (kitchen counter, bathroom shelf, laundry room)
- **People** should look real, diverse, happy — not polished stock models
- **Lifestyle shots** should feel like a friend's Instagram, not an ad campaign
- Avoid: forest/nature clichés, green leaves as props, hands holding globes

Illustration & Icons

- Playful line-drawn icons (as seen on packaging) — one per product
- Organic shapes, slightly imperfect lines — human, not algorithmic
- Orange on cream or white backgrounds preferred

Layout & Design

- Clean, generous white space — let the color and product breathe
- Cards and sections with soft rounded corners
- Subtle textures allowed (e.g. paper grain on backgrounds) — nods to kraft packaging
- Avoid harsh shadows — use soft, warm shadows with slight orange tint

Logo System

The brand mark is a **bold orange wordmark**: the word "Tabblie" (capital T, rest lowercase) rendered as a chunky, rounded grotesk in Tabblie Orange **#E8622A** on light backgrounds. It reads as confident and modern — not script, not serif, not soft.

Asset	File	Usage
Full wordmark	<code>tabblie-logo.svg</code> / <code>tabblie-logo.png</code>	Site header, footer, marketing — anywhere there's room for the full name
Small mark (orange "T")	<code>tabblie-logo-small.png</code>	Sticky mobile navbar, compact UI, social avatars, app icons, packaging stickers
Favicon	<code>tabblie-favicon.png</code> (256×256, orange "T" square)	Browser tab

Logo rules: - The wordmark sits on its own — **no circle, badge, or container around it.** (Previous circular-background treatments are retired.) - Always written "Tabblie" — capital T, rest lowercase. Never "tabblie", never "TABBLIE". - Minimum clear space: equal to the height of the capital "T" - On light/cream backgrounds: orange `#E8622A` - On dark or photographic backgrounds: white - Never stretch, rotate, recolour, or add effects (drop shadows, outlines, bevels) - Never swap the wordmark for all-lowercase or the old lowercase serif mark

12. Brand Don'ts

- Don't render the logo inside a circle, pill, or badge — the wordmark stands alone
- Don't write the brand name as "tabblie" (all-lowercase) or "TABBLIE" (all-caps) — it's always "Tabblie"
- Don't introduce a second typeface — Plus Jakarta Sans does everything
- Don't use dark green as a primary color
- Don't use guilt or fear messaging around climate
- Don't make the product seem like a sacrifice
- Don't use overly technical eco-language without explanation
- Don't show the brand as exclusive, niche, or "for eco people"
- Don't use cold blues or grays as dominant colors
- Don't use emojis anywhere — always SVG icons (see `styling-system.md`)
- **Don't claim "plasticvrij" / "plastic-free" / "100% plastic free"** — the products are not 100% plastic-free. The correct, honest claim is **"geen plasticafval"** (NL) / **"no plastic waste"** (EN). The difference matters: we eliminate plastic *waste* (no plastic bottles, packaging, or microplastics ending up in landfill), not every plastic molecule in the formula. Greenwashing-adjacent claims damage trust.

Styling System — het complete stijlsysteem

Tabblie — Live Styling System

The operational source of truth for colors, type, icons, and spacing as implemented on the live Tabblie theme. Last audited: 2026-04-15

This document mirrors what is actually in the code. If you change a pattern in the theme, update this file too. For brand philosophy and tone see `brand-document.md`. For product scope see `PRD.md`.

1. Color Palette — Live Values

Brand anchors (every page uses these)

Token	Hex	Where
Tabblie Orange	#E8622A	Logo wordmark, CTAs, eyebrows, active states, link hover, icon tints
Warm Cream	#FDF6EE	Page body background, card backgrounds, alternate section rhythm
Pure White	#FFFFFF	Alternate section rhythm — content-heavy blocks (testimonials, ingredients, education, FAQ)
Deep Earth (text)	#1F1209	All body copy and headings
Deep Earth 70%	rgba(31, 18, 9, 0.7)	Secondary body copy
Deep Earth 65%	rgba(31, 18, 9, 0.65)	Paragraph body in hero blocks
Deep Earth 50%	rgba(31, 18, 9, 0.5)	Subtitles, captions
Deep Earth 10%	rgba(31, 18, 9, 0.1)	Card borders, FAQ dividers
Deep Earth 8%	rgba(31, 18, 9, 0.08)	USP-strip bottom border, subtle dividers
Deep Earth 6%	rgba(31, 18, 9, 0.06)	Comparison table rows, lightest shadows

Section accent colors (beyond orange)

Name	Hex	Where used
Soft Teal	#5BB8A0	USP icons (leaf, shield, recycle), decorative leaves, eco badges
Sunny Yellow	#F5C842	Star ratings, decorative leaves (highlight), vaatwasstrips identity
Coral Pink	#E85B7A	"Heart / vegan" USP icon
Trust Blue	#3B7DD8	"Verified", truck, check USP icons

Name	Hex	Where used
Checkmark Green	#38A169	Comparison table checkmarks, guarantee cues
Trustpilot Green	#00B67A	Review star block on PDP
Blush Pink (product)	#F2A0A0	Allesreiniger identity
Hero Blue light	#E1ECFA	Collection hero gradient start
Hero Blue mid	#C8D9F5	Collection hero gradient middle
Section Pink (HIW bg)	#F8BFD6	How-it-works background
Off-white eco	#F0F7EE	Carbon-offset section background

Product identity pairs (accent + card-bg)

Product	Accent	Card background
Wasstrips	#E8622A	#FDEEE6
Vaatwasstrips	#F5C842	#FDF5DD
Toiletstrips	#5BB8A0	#E2F2ED
Allesreiniger	#F2A0A0	#FCE8E8

Gradients (exact CSS)

```

/* Newsletter splash (footer + homepage) */
background: linear-gradient(135deg, #E8622A 0%, #F5934A 100%);

/* Collection hero background */
background: linear-gradient(160deg, #E1ECFA 0%, #C8D9F5 40%, #D5E3F8 70%, #E8EFF9 100%);

/* Product feature placeholder */
background: linear-gradient(135deg, rgba(232,98,42,0.12) 0%, rgba(243,226,206,0.6) 100%);

/* Product image frame (PDP) – gradient border via padding */
background: linear-gradient(135deg, #E8622A 0%, #F5C842 50%, #5BB8A0 100%);

```

Section background map (which section → which color)

Section	Background
tabblie-page-hero (default)	#FDF6EE
tabblie-collection-hero	Blue gradient (above)
tabblie-product-feature	#FFFFFF
tabblie-testimonials	#FFFFFF
tabblie-ingredients	#FFFFFF
tabblie-education	#FFFFFF
tabblie-faq	#FFFFFF
tabblie-guarantee	#FDF6EE
tabblie-comparison	#FDF6EE
tabblie-founder	#FDF6EE
tabblie-how-it-works	#F8BFD6

Section	Background
tabblie-how-it-works-v2	Pink splash gradient w/ "1 2 3" watermark
tabblie-carbon-offset	#F0F7EE
tabblie-impact	#E8622A (white text)
tabblie-newsletter	Orange gradient (above)

Rhythm rule: alternate cream → white → cream → white down the page, with orange (`tabblie-impact`) or blue (collection hero) as high-impact breakpoints. Avoid two identical backgrounds in a row.

2. Typography (updated 2026-07-24)

Single typeface

Baloo 2 — Google Fonts, weights 400/500/600/700/800. Chunky rounded face matching the Tabblie wordmark (closest free equivalent of TT Drugs, which is a paid font). Fallback: Plus Jakarta Sans. Used for *everything*: headings, body, buttons, menus, footer.

⚠ **Baloo 2 has NO italics.** Never use `font-style: italic` — the browser synthesizes a thin slanted fake that reads as a wrong font. Accents that used to be italic are now **weight 800, normal style, orange**.

Where it's implemented (all three layers must stay in sync)

- Theme settings** (`config/settings_data.json`): `type_font_1_name / type_font_2_name = "Baloo 2"` — feeds all settings-driven components (product card titles etc.)
- `assets/tabblie-brand.css`** `html:root` block: overrides both brand vars (`--heading-font-family` , `--text-font-family`) and every theme-generated var (`--font-family-1/2` , `--font-heading-family` , `--font-body-family` , menu/mega-menu/btn/footer/page-title vars)
- `snippets/global-style.liquid`** : Google Fonts load, weights 400–800, `display=swap`

CSS variables

```

--heading-font-weight: 700;
--text-font-weight: 400;
--heading-letter-spacing: -0.01em;
--text-letter-spacing: 0em;

```

Weights — the system

Element	Weight
All headings h1–h3 + tabblie section titles	700 (forced via global rule in tabblie-brand.css — Baloo at 400 reads like a different, thin font)
Orange heading accents ("opnieuw uitgevonden.", "Risicovrij", "Tabblie" in comparison)	800 , <code>font-style: normal</code> , <code>#E8622A</code>
PDP product title (h1.productView-title)	800 , <code>clamp(30px, 3.2vw, 42px)</code> (28px mobile), line-height 1.12
Product card titles (a.card-title)	700
Eyebrows (uppercase labels)	600 (700 gets blobby at 13px)
Body	400

Type scale (live `clamp()` values)

Element	CSS
Page hero H1	<code>clamp(2.8rem, 6vw, 5.2rem)</code>
Section H2	<code>clamp(2.2rem, 4vw, 3.4rem)</code>
PDP product title	<code>clamp(30px, 3.2vw, 42px)</code>
Newsletter heading	<code>clamp(2.6rem, 5vw, 4rem)</code>
Discount display	<code>clamp(4rem, 8vw, 6.5rem)</code>
Card H3	<code>clamp(1.25rem, 2vw, 1.5rem)</code>
Body	<code>14–16px</code> (16px min on mobile)
Eyebrow	<code>13px</code> fixed, uppercase
Small / caption	<code>11–15px</code>

Line heights

- Headings: `1.1` – `1.15`
- Body: `1.6` – `1.7`
- Eyebrows: `1.5`

Rules

- Eyebrows always orange `#E8622A` , weight 600, letter-spacing `0.1em` , uppercase
- Never `font-style: italic` anywhere (Baloo 2 has no italics — see above)
- Never drop below 400 weight (accessibility)
- Body text minimum 16px on mobile to avoid iOS zoom on inputs
- **"Tabblie" is always capitalized** in every piece of copy (headings, body, FAQs, alt text, social: @Tabblie, Tabblie.com). Only exception: email addresses (support@tabblie.com)

3. Icons

SVG icon inventory (used across tabblie-*.liquid)

Icon	Purpose	Color	Sections
Check (thin stroke)	Benefit bullet	<code>#E8622A</code>	product-feature
Check (thick)	Comparison ✓	<code>#38A169</code>	comparison
X-mark	Comparison ✗	<code>rgba(31,18,9,0.35)</code>	comparison
Arrow right	CTA glyph	<code>#E8622A</code>	product-feature, ingredients
Plus / minus	FAQ toggle (CSS ::before/::after bars, 16×2 / 2×16 px)	<code>#E8622A</code>	faq
Leaf	Eco	<code>#5BB8A0</code>	usp-strip, decorative leaves
Heart	Vegan/love	<code>#E85B7A</code>	usp-strip
Truck	Shipping	<code>#3B7DD8</code>	usp-strip
Shield	Trust/safe	<code>#5BB8A0</code>	usp-strip
Recycle	Sustainability	<code>#5BB8A0</code>	usp-strip

Icon	Purpose	Color	Sections
Star (polygon)	Rating	#F5C842	usp-strip
Star (unicode ★)	Review rating	#E8622A	testimonials
Check-circle	NL flag substitute → replaced by tricolor band	—	usp-strip
Globe	World/mission	#E8622A	faq (section icon)
Turtle	Vegan/animal	#E8622A	faq (section icon)
Question mark	FAQ section mark (stroke path + rounded-cap line dot)	#E8622A	faq
Box / shipping / return / leaf	FAQ section icon options	#E8622A	faq
Decorative leaf (organic path)	Ambient background	Teal/Orange/Yellow @ 0.08–0.18 opacity	testimonials, guarantee, ingredients, founder, comparison — desktop only
How-it-works ring ellipse	Badge frame	white stroke, 2.5px	how-it-works

Image-based icons

Asset	Purpose	Size shown
tabblie-carbon-footprint.png	Green footprint badge	90×90px desktop, 64×64px mobile (section) / 18×18px inline (USP)
tabblie-plasticfree.png	Circular green eco badge, 22×22px inline (USP strip, announcement bar). ⚠️ Current asset reads "100% PLASTIC FREE" — must be regenerated to say "NO PLASTIC WASTE" to match honest-claim messaging.	22×22px inline
stars-4.7.svg	Trustpilot 4.7 stars	dynamic, PDP

Payment icons (/assets/pay-*.svg + .png)

pay-ideal.svg , pay-visa.svg , pay-master.svg , pay-applepay.svg , pay-paypal.svg , pay-klarna.png — rendered in a single row on PDP checkout area.

Logo assets

File	Purpose
tabblie-logo.svg / tabblie-logo.png	Full orange bold wordmark (header, footer)
tabblie-logo-dark.svg	Dark variant (on light photographic backgrounds if needed)
tabblie-logo-small.png	Orange "T" only — compact UI, mobile sticky nav, social avatars
tabblie-favicon.png	256×256 orange "T" square, browser tab
tabblie-favicon.svg	Vector favicon alternative

Never: - Use emojis anywhere on the site - Recolor icons outside the palette above - Wrap the wordmark in a circle, pill, or badge

4. Buttons & CTAs

Primary CTA (solid orange pill) — THE button standard (updated 2026-07-26)

Every buy/CTA button on every page is a SOLID orange pill with BOLD white text. Outline/ghost buttons are off-brand for primary actions.

```
background: #E8622A;          /* solid – never transparent, never grey */
color: #FFFFFF;                /* white, ALSO on hover (guard against theme a:hover) */
padding: 15–17px 32–36px;     /* big CTAs: 17px 36px */
border-radius: 100px;
font-size: 15–18px;           /* hero/PDP CTAs: 18px */
font-weight: 800;             /* bold is the brand – 600 reads too thin in Baloo 2 */
border: none;
transition: background 0.2s ease;

/* hover */
background: #cf531e;          /* explicitly re-set; theme a:hover turns it orange */
color: #FFFFFF;
```

Secondary CTA (orange outline pill)

```
background: transparent;
color: #E8622A;
border: 1.5px solid #E8622A;
padding: 14px 28px;
border-radius: 100px;
font-size: 15px;
font-weight: 600;
transition: background 0.2s ease, transform 0.2s ease;

/* hover */
background: #E8622A;
color: #FDF6EE;
transform: translateY(-1px);
```

Newsletter CTA (white on gradient)

```
background: #FFFFFF;
color: #E8622A;
padding: 10px 24px; /* mobile: 12px */
border-radius: 100px;
font-size: 14px;
font-weight: 700;

/* hover */
background: #FDF6EE;
transform: scale(1.03);
```

With trailing icon

- gap 8px between text and 16×16 SVG arrow
- hovericon transform: translateX(3px)

5. Border Radii

Value	Use
100px	Pill buttons, newsletter input, announcement-bar badges
50%	Circular avatars, guarantee badge, icon circles
20px	Large image containers (founder portrait, guarantee visual)
16px	Cards, ingredient tiles, testimonial cards, comparison table
12px	Form inputs, smaller cards
8px	Tight UI chips
2px	Divider bars, FAQ toggle bars

Value	Use
0	Tables, raw grid cells

6. Shadows

Purpose	CSS
Product/feature card (rest)	0 8px 24px rgba(232, 98, 42, 0.12)
Card hover	0 4px 16px rgba(232, 98, 42, 0.20)
High-emphasis badge (guarantee 30-day circle)	0 4px 20px rgba(232, 98, 42, 0.30)
Newsletter / footer buttons	0 6px 20px rgba(232, 98, 42, 0.15)
Subtle dark card	0 2px 16px rgba(31, 18, 9, 0.06)
Subtle dark card (mobile)	0 2px 12px rgba(31, 18, 9, 0.06)
White ring (HIW badges)	box-shadow: 0 0 0 3px #FFFFFF

Rule: shadows are warm orange-tinted (preferred) or low-opacity dark earth. Never pure black.

7. Spacing & Layout

Section vertical padding

Scale	CSS	Used in
Large	clamp(56px, 7vw, 96px)	product-feature, testimonials, ingredients, education, FAQ, founder
Medium	clamp(48px, 6vw, 80px)	stats, how-it-works, comparison, guarantee
Small	clamp(36px, 4vw, 56px)	impact, carbon-offset, education header
Minimal	10px	USP strip, deal bar

Horizontal gutters

- Desktop: clamp(16px, 3vw, 40px)
- Mobile (≤749px): 20–24px hardcoded

Max widths

px	Use
1200	Ingredient grid container
1100	Most section inner wrappers
860	Carbon-offset
800	Comparison table
780	Page hero, stats header
720	Impact, testimonials inner
620	Newsletter
560	Body copy blocks under headings

Grid gaps

Gap	Use
clamp(36px, 5vw, 64px)	Two-column layouts
clamp(32px, 4vw, 56px)	Header → content spacing
clamp(24px, 3vw, 48px)	3-col grids
clamp(20px, 2.5vw, 36px)	Card padding
clamp(16px, 2vw, 24px)	Tight grids
8–12px	Inline (icon + text)

Breakpoints

- Mobile: ≤749px
- Tablet: 750–1023px
- Desktop: ≥1024px

8. Animations

Defined keyframes

```
/* USP strip marquee */
@keyframes tabblie-usp-scroll {
  0% { transform: translateX(0); }
  100% { transform: translateX(-25%); }
}
/* 40s desktop, 22s mobile, pause on hover */

/* How-it-works connector line */
@keyframes hiw-line {
  from { transform: scaleX(0); }
  to { transform: scaleX(1); }
}

/* How-it-works step badges (bouncy entrance) */
@keyframes hiw-badge {
  from { opacity: 0; transform: scale(0.5); }
  to { opacity: 1; transform: scale(1); }
}
/* 0.45s cubic-bezier(0.34, 1.56, 0.64, 1), staggered */

/* How-it-works step descriptions */
@keyframes hiw-content {
  from { opacity: 0; transform: translateY(10px); }
  to { opacity: 1; transform: translateY(0); }
}
```

JS animations

- Number counters** (stats, education): 1800ms duration, easeOutCubic, triggered via IntersectionObserver (threshold 0.3)
- Scroll reveal:** snippets/tabblie-scroll-reveal.liquid handles generic fade-ins

Hover micro-interactions

- Button lift: transform: translateY(-1px)
- Icon scale on hover: transform: scale(1.15)
- Newsletter button: transform: scale(1.03)
- CTA arrow slide: translateX(3px)

Transition defaults

```
--duration-short: 100ms;
--duration-default: 350ms;
--duration-long: 500ms;
```

9. Decorative Leaves (desktop only)

Shared SVG path, used as ambient background flourishes. Hidden on mobile via `@media (max-width: 749px) { display: none } .`

```
<path d="M50 5 C 25 5, 10 30, 10 55 C 10 75, 25 90, 50 95 C 50 70, 35 50, 20 40 C 40 45, 55 60, 50 95 C 75 90, 90 75, 90 55 C 90 30, 75 5, 50 5 Z"/>
```

Section	Leaf 1	Leaf 2	Leaf 3
testimonials	Yellow #F5C842 @ 0.18, -40°, top-left	Teal #5BB8A0 @ 0.15, 150°, bottom-right	—
guarantee	Teal #5BB8A0 @ 0.12, -30°, top-left	—	—
ingredients	Teal @ 0.15, -25°, TL	Orange #E8622A @ 0.10, 140°, BR	Yellow @ 0.08, 35°, center
founder	Orange @ 0.10, 160°, top-right	Teal @ 0.15, -30°, bottom-left	—
comparison	Teal @ 0.12, 140°, top-right	Orange @ 0.08, -40°, bottom-left	—

10. Maintenance Checklist

When modifying the theme, update this file whenever you: - Add or remove a section file under `sections/tabblie-*.liquid` - Change a brand color or introduce a new accent - Add a new icon, animation, or decorative element - Retire an old pattern (e.g. the circular logo background)

The goal: this document should stay readable as a single page and always match what is live.

9. Generated Imagery Style (AI images/videos — approved 2026-07-24)

Tabblie imagery is **funky, colorful and product-forward — never quiet beige "aesthetic silence" skincare styling.**

The formula (validated on the PDP ingredient cards): - Solid vivid background in a brand/product identity color (teal #5BB8A0 , pink, yellow #F5C842 , blue #E1ECFA -deepened) — one color per image, rotate across a set - The product in frame where possible: the white strip (flat, dotted middle perforation) or the cardboard package - Dynamic pop-art energy: objects mid-air, bursts/splashes frozen in motion, punchy directional light, crisp graphic shadows - Green is allowed when the story is literally "plantaardig" (aloe/eucalyptus as playful props on brand teal) — but never dark-green eco-cliché or preachy - Prompt template + live examples: `HIGGSFIELD_VIDEOS/generated/ingredient-images/prompts.md` - Personas, product references and video recipes: `HIGGSFIELD_VIDEOS/README.md`

On-page treatment (see `sections/tabblie-ingredients.liquid`): cards in product pastel colors (#E2F2ED / #FCE8E8 / #FDF5DD), staggered fade-up reveal on scroll, hover = lift + slight rotate + image zoom (bouncy `cubic-bezier(0.34, 1.56, 0.64, 1)`).

10. Hand-Drawn Product Illustrations (brand element — added 2026-07-24)

Each package carries a **monochrome hand-drawn doodle illustration** under the Tabblie script wordmark, in the product's print color. These drawings ARE the brand and should return across the site (section decorations, dividers, empty states, category headers) — prefer them over generic decorative shapes.

Product	Illustration	Print color on pouch
Wasstrips	clothesline with hanging garments (shirts, pants, socks on a sagging line)	dark red on light blue
Vaatwasstrips	stacked bowls/plates with a sponge and a sparkle	dark green on pink
Toiletstrips	(see dieline)	per identity color

Style traits: playful slightly-wobbly line art with filled silhouettes, single color, naive/hand-sketched feel — never precise geometric icons, never multi-color for these. **Vector source:** the print dielines in `HIGGSFIELD_VIDEO5/product-reference/products/*/ (*-dieline.pdf)` contain the original artwork — extract vectors from there for site use rather than redrawing. **In AI generations:** describe as "hand-drawn [clothesline/stacked-dishes] illustration in [dark red/dark green]" so the packaging renders faithfully.

11. Sticker Cards (approved card style — 2026-07-26)

The house style for stat/feature cards ("Wat traditionele merken niet vertellen" is the reference implementation, `sections/tabblie-education.liquid`):

```
border: solid #1F1209;          /* dark ink outline */
border-width: 2px 3.5px 3.5px 2px; /* pen-pressure: heavier toward one corner */
/* alternate per card: even cards flip to 3.5px 2px 2px 3.5px */
border-radius: 18px;
background: #FDF6EE;           /* or product pastel */
box-shadow: 5px 5px 0 rgba(232, 98, 42, 0.9); /* SOLID offset shadow, accent color */
/* hover: card moves toward the light, shadow grows */
transform: translate(-2px, -4px);
box-shadow: 8px 9px 0 rgba(232, 98, 42, 0.9);
transition: transform 0.3s cubic-bezier(0.34, 1.56, 0.64, 1);
```

Rules: - Clean uniform geometry — NO wobbly radii or card tilts (tried 2026-07-26, rejected) - The "drawn" feel comes from **varied border weight** (pen pressure), alternating the heavy corner per card — never from distorted shapes - **Use the ink outline sparingly — in the details** (updated 2026-07-26): badges, icon chips and circles (e.g. the "30 dagen proef wassen" badge, the stat-card icon chips, the "Een twee drie" stepper nodes: `border: 2px solid #1F1209; box-shadow: 2px 3px 0 rgba(31, 18, 9, 0.25)`). Full-card outlines only where the section carries it (e.g. the ingredient cards) — not on every grid - Solid (non-blurred) offset shadow in an accent color — orange by default, **green (`rgba(56, 161, 105, 0.9)`) when the card is the positive/Tabblie card** - Icon chips inside cards: 36px circle, brand gradient `linear-gradient(135deg, #E8622A, #F5934A)` (green variant `#38A169 → #5BC98B`), white icon, soft glow, pops/rotates on hover - Always the house bouncy easing `cubic-bezier(0.34, 1.56, 0.64, 1)` - Pairs with the gradient-splash style (\$4/newsletter) and the hand-drawn illustrations (\$10)

12. Homepage Design Language 2026-07 ("Tierelier look" — approved 2026-07-26)

HARD RULES — apply on EVERY page (not just the homepage)

These are founder-confirmed brand law (2026-07-26). Any page or new section that violates them is off-brand and must be fixed:

- Text is very dark green `#182D20` — NEVER black** (`#000000` / `#1F1209` are retired). Softer copy uses `rgba(24, 45, 32, x)`. Headings: `#182D20` or design green `#26523F`.
- Buttons are solid orange `#E8622A` with BOLD white text (weight 700–800)** — product cards, view-all, CTAs, sticky bars. White stays white on hover. No outline, ghost, grey, or thin-text buttons for primary actions.
- Bold is the default voice:** headings 700–800, button/label text 700–800, utility strips (announcement bar, marquees) white 800 with fat icons (16–18px, stroke ≥ 2.6). Thin/light text on colored strips is off-brand.
- Small orange eyebrows get pink dashes** (global custom.css rule); big headers don't.
- Follow the recurring elements below for decoration (pills + hearts, stripe accents, plants on light bottom corners only, check chips).

Color updates

Token	Hex	Use
Text (NEW)	#182D20	ALL body/heading dark text — replaces dark earth #1F1209 everywhere (2026-07-26)
Design green	#26523F	big headings, pills, check chips, ink details
Plant green	#2C6B4E	Matisse plant cutouts (slightly brighter so it reads green)
Hero pink (deep)	#F08CAE	tierelier strip background (punchier than section pink #F8BFD6)

The old rule "never use dark green" is RETIRED per the founder's 2026-07 design — dark green is now a core brand color for headings/pills/accents. Avoid only the clichéd "eco leaf + dark green everywhere" look; green is used graphic and playful, not preachy.

Recurring elements

- **Two-tone chunky headings:** line 1 in design green, line 2 HUGE in white (weight 800, line-height ~0.95) — e.g. "Werkt als een / tierelier."
- **Pill sub-lines:** dark-green pill, white bold text + white heart (SVG heart, never emoji) — also used as the hero badge ("Sluit je aan bij 1.000+ huishoudens...")
- **PDP buy box (redesign 2026-07-26):** Flat green stars (#26523F) + "4,8/5 • 1.000+ tevreden klanten", green 800 title, italic subtitle, 4 compact trust pills incl. delivery, full-width orange ATC with cart icon, green guarantee strip (#E2F2ED) directly under it, 76px reviewer avatar with big green stars. "Geliefd door 1.000+ klanten" header art (heading + sparkle + colored clothesline snippet `tabblie-clothesline-color` + plant) sits LEFT under the social-proof card; UGC videos with white name/star pills stay in the right column. Package bundles come from the Kaching Bundles app — never build a custom package selector.
- **Orange utility strips** (announcement bar + hero marquee): white text weight 800 (announcement 13px, marquee uppercase ~14.5px), fat white icons (16-18px, SVG stroke-width 2.6-2.8) — thin/light text on orange strips is off-brand
- **Brush-paint icons:** hand-painted white PNGs on colored backgrounds (Flower, check, X, smiley — uploaded as shop images 1..4)
- **White hairline dividers** between icon items (rgba(255,255,255,0.55), 1px)
- **Eyebrow dashes:** short pink strokes (#F08CAE, 22x3px, ±8° rotated) flanking uppercase orange eyebrows. **This is now GLOBAL:** `assets/custom.css` applies the dashes to every `*__eyebrow` class site-wide (2026-07-26) — new sections get it for free by naming their eyebrow class `tabblie-xxx__eyebrow` and adding it to the custom.css selector list
- **Sparkle strokes:** 2-3 short dark strokes (`#182D20` , 2.5px, rotated) as "ping" accents near icons/cards or flanking big two-tone headings (~92px on the Tierelier strip); NOT next to buttons (founder removed them at "Bekijk alle producten")
- **Matisse plant cutouts:** `{% render 'tabblie-plant' %}` — flat organic finger-lobes, cropped into section corners. Use sparingly: BOTTOM corners on light sections only (founder removed them from the hero top and the pink Tierelier strip, 2026-07-26)
- **Check chips:** solid dark-green circles with white checks (lists + positive stat cards); X chips solid orange with white X
- **CTA pills:** orange, white bold text + white heart, e.g. "Kies voor Tabblie ♥️" — primary CTAs are BIG and bold: 18px / weight 800 / padding 17px 36px
- **Solid orange buttons everywhere:** product-card buttons (`.button-ATC`) and the "Bekijk alle producten" view-all link are solid `#E8622A` pills with bold white text (never outline/ghost); text stays WHITE on hover (theme a:hover otherwise turns it orange-on-orange — guarded in custom.css)

- **Plant snippet shape (2026-07-26):** `snippets/tabblie-plant.liquid` redrawn to the founder-approved reference — 4
fat rounded finger-lobes (ellipses, rx 15-28) fanning out of a low wide mound, deep green `#26523F` , transparent background, always via inline `style="fill:..."` (theme CSS overrides the fill attribute)

Marktpositionering

Tabblie — Market Positioning & Go-to-Market Strategy

Who We Are

Tabblie is a Dutch family company that makes eco-friendly cleaning strips — laundry, dishwasher, toilet, and all-purpose. One strip replaces one plastic bottle. Our daughter started it because she asked: "why does cleaning still need plastic?"

The Problem We Solve

- **12+ plastic bottles** per household per year just for cleaning
- **80%** of cleaning products contain unnecessary chemicals
- **91%** of plastic never gets recycled
- Traditional cleaning products are heavy, wasteful, and overpackaged

Our Solution

Concentrated cleaning strips that: - Dissolve in water (hot or cold) - Are 100% biodegradable - Come in recyclable paper packaging - Work as well as traditional products - Are dermatologically tested & safe for the whole family

Target Market

Primary: Dutch Households (NL & BE)

- Young families (25-40) who care about sustainability but don't want to sacrifice convenience
- People tired of lugging heavy bottles from the supermarket
- Parents who want safe products around kids
- Environmentally aware but not "eco-warriors" — they want easy, not preachy

Buyer Persona: "Sophie, 32, Amsterdam"

Works full-time, two kids, shops online. Wants to make better choices but doesn't have time to research everything. Attracted by simplicity ("just tear, drop, done"), design (not ugly green packaging), and the fact that it actually works.

Competitive Landscape

Competitor	Positioning	Our Advantage
Traditional brands (Robijn, Dreft, etc.)	Mass market, heavy plastic, chemicals	No plastic waste, plant-based, same effectiveness
Mother's Earth	Eco sheets, similar product	We're more affordable, better design, Dutch family story

Competitor	Positioning	Our Advantage
Seepje	Natural cleaning, nuts-based	We're more convenient (pre-dosed strips), modern branding
The Lekker Company	Natural personal care	Different category but similar audience — we complement them

How We Position Ourselves

Not This → This

- "Save the planet" → "Schoonmaken, opnieuw uitgevonden"
- Green leaves & globes → Bold orange, kraft paper, modern design
- Guilt-driven messaging → Cheeky, direct, family-friendly
- Premium/expensive eco → Affordable, accessible, for everyone
- Complicated ingredients → "Tabblie, kind kan de was doen"

Brand Pillars

1. **Simplel** — One strip. That's it. No measuring, no heavy bottles, no mess.
2. **Eerlijk** — Transparent ingredients, honest pricing, no greenwashing.
3. **Effectief** — Works as well as the brands you know. 30-day guarantee.
4. **Familie** — Safe for kids, made by a family, for families.

Go-to-Market Strategy

Phase 1: Launch (Current)

- **DTC webshop** (Shopify) — direct to consumer, NL & BE
- **4 products:** Wasstrips, Vaatwasstrips, Toiletstrips, Allesreiniger
- **Key hooks:** Free shipping, 30-day guarantee, 15% first-order discount
- **Social proof:** Trustpilot-style ratings, UGC video testimonials
- **Foundation:** 10% of profits to environmental projects (Plastic Soup Foundation)

Phase 2: Growth

- **Subscription model** — auto-delivery every 4/8/12 weeks (Shopify subscriptions)
- **Bundle deals** — Starter kit (all 4 products), family pack
- **Retail** — Dutch drugstores (Etos, Kruidvat), supermarkets (Albert Heijn)
- **Influencer marketing** — Dutch micro-influencers (cleaning, family, sustainability)
- **Judge.me reviews** — collect real reviews with photos

Phase 3: Expansion

- **Belgium launch** (already shipping, increase marketing)
- **Germany** — largest EU market, strong eco-consciousness
- **Additional products** — glass cleaner strips, hand soap strips
- **B2B** — offices, hotels, cleaning companies

Pricing Strategy

- **Accessible pricing** — not premium, not budget. Fair.
 - **Free shipping** on all orders (NL & BE) — strips are light, shipping cost is minimal
 - **Subscription discount** — 15% off recurring orders
 - **First-order discount** — 15% via email signup
 - **Bundle savings** — buy 3+, get discount
-

Key Metrics to Track

- **Conversion rate** on product page (target: 3-4%)
 - **Email signup rate** (target: 5% of visitors)
 - **Repeat purchase rate** (target: 40% within 90 days)
 - **Average order value** (target: 2+ products)
 - **Trustpilot/Judge.me score** (target: 4.5+)
-

Brand Voice Examples

Do say: - "Scheur, gooi, klaar." - "Eén strip vervangt één plastic fles." - "Tabblie, kind kan de was doen." - "Geen plastic, geen rommel, geen excuses."

Don't say: - "Save the planet with every wash" - "Join the green revolution" - "Eco-warrior approved" - "Mother nature thanks you"

Quick Reference (werkinstructies)

CLAUDE.md — Tabblie Shopify Theme

This file provides context and working instructions for Claude Code when working on the Tabblie Shopify theme.

Project Overview

Brand: Tabblie **Store:** tabblie.com **Platform:** Shopify (Online Store 2.0) **Base theme:** Halo (exported from tabblie.com) **Purpose:** DTC e-commerce store for eco-friendly household strips (laundry, dishwasher, toilet)

Full brand details → `brand-document.md` Full website requirements → `PRD.md` Market positioning → `market-positioning.md` **Live style guide (colors, gradients, icons, type scale, spacing)** → `styling-system.md`

This file is the brand style guide — consult it BEFORE building or restyling anything. New sections/components must follow §12 (Tierelier design language), §11 (ink details) and §9-10 (imagery & illustrations) by default.

Brand Identity (Quick Reference)

Positioning: Affordable, aesthetic eco-friendly products for everyone — not preachy, not expensive, not ugly. **Tone:** Cheeky and direct. Never preachy. Never guilt-driven. Family-friendly. **Tagline:** "Schoonmaken, opnieuw uitgevonden." **Slogan:** "Tabblie, kind kan de was doen." **Language:** Dutch (NL) primary. English planned for future.

Colors

Token	Hex	Use
Primary (Orange)	#E8622A	Logo, CTAs, brand anchor
Background (Warm Cream)	#FDF6EE	Page body, cards
Text (Very Dark Green)	#182D20	Body text, headings (replaced dark earth #1F1209, 2026-07-26)
Hero Blue	#E1ECFA	Homepage hero (gradient to #C8D9F5)
Section Pink	#F8BFD6	How-it-works, icon strips
Wasstrips	#E8622A / #FDEEE6	Orange accent / card bg
Vaatwasstrips	#F5C842 / #FDF5DD	Yellow accent / card bg
Toiletstrips	#5BB8A0 / #E2F2ED	Teal accent / card bg
Allesreiniger	#F2A0A0 / #FCE8E8	Pink accent / card bg

UI accent colors: | Token | Hex | Use | ---|---|---| | Green | #38A169 | Checkmarks, guarantee badge, comparison table | | Blue | #3B7DD8 | Verified badges, shipping icon | | Pink | #E85B7A | Vegan/heart icon | | Gold | #F5C842 | Star/effectiveness icon | | Trustpilot Green | #00B67A | Review stars on product page |

Color rules: - Orange is always the brand anchor - Each product has its own identity color - Section backgrounds alternate: cream, white, blue, pink, orange for visual rhythm - Never use emojis — always SVG icons with varied colors from the accent palette

Button & boldness rule (2026-07-26): ALL primary buttons site-wide are solid orange #E8622A pills with BOLD white text (weight 700-800, white stays white on hover) — never outline/ghost/grey. Body text is #182D20 (never black), headings 700-

Fonts

Single typeface across the whole site (updated 2026-07-24): Baloo 2 (Google Fonts, weights 400–800) — chunky rounded face matching the wordmark (closest free equivalent of paid TT Drugs). Fallback: Plus Jakarta Sans. Full system → [styling-system.md](#) §2.

- Headings: 700 weight, letter-spacing `-0.01em`, line-height `1.1` – `1.15`
- Orange accents: 800 weight, never italic (Baloo 2 has no italics)
- Body: 400 weight, line-height `1.6` – `1.7`
- Eyebrows: 600, uppercase, letter-spacing `0.1em`, always orange `#E8622A`

Hand-drawn product illustrations (added 2026-07-24)

Each package carries a monochrome hand-drawn doodle under the wordmark (laundry: clothesline with garments in dark red; dishwasher: stacked dishes + sponge in dark green). This sketchy single-color style is a core brand element — bring it back across the site (decorations, dividers, headers) instead of generic shapes. Vector source: the dieline PDFs in [HIGGSFIELD_VIDEOS/product-reference/products/*/](#). Full spec → [styling-system.md](#) §10.

Logo Assets

- **Full wordmark:** Bold orange grotesk "Tabblie" — capital T, rest lowercase ([tabblie-logo.svg](#) / [tabblie-logo.png](#)). The wordmark stands alone — **no circle, badge, or container**.
- **Small logo / Icon:** Just the "T" in brand orange ([tabblie-logo-small.png](#)) — use for compact spaces, app icons, mobile sticky nav
- **Favicon:** Square orange "T" for browser tab ([tabblie-favicon.png](#) — 256×256)

Logo rules: - Always written "Tabblie" (capital T, rest lowercase) — never "tabblie" all-lowercase, never "TABBLIE" in caps. Applies to ALL copy everywhere (incl. @Tabblie, Tabblie.com); only email addresses stay lowercase - No circular background behind the wordmark — that treatment is retired - On light/cream: orange `#E8622A`. On dark/photographic: white. - Never stretch, rotate, recolour, or add effects

File Structure

```
/assets      → CSS, JS, images, liquid assets (theme files + Tabblie brand assets)
/blocks      → Theme block definitions
/config      → settings_schema.json, settings_data.json (theme settings)
/layout      → theme.liquid (global layout wrapper)
/locales     → Translation files (en.default.json, nl.json etc.)
/sections    → Page sections (.liquid) — main building blocks
/snippets    → Reusable partials called via {% render %}
/templates   → Page templates (JSON-based for OS2.0)
/COMPANY_BRANDING → Brand document, PRD, styling system, market positioning (not Shopify files — reference only)
```

Note: Theme files live at the **repo root** so Shopify's GitHub integration can detect them directly.

Working Principles

Always follow the brand

- Use `#E8622A` for all primary CTAs and highlights — no grey or muted buttons
- Background color for most sections: `#FDF6EE` (warm cream), not pure `FFFFFF`
- Copy tone must be cheeky and direct — avoid corporate/generic language
- Dark green (`#26523F`) is a core brand color since the 2026-07 design (headings, pills, checks, plant cutouts) — just never combine it with clichéd eco imagery (leaves + globes + guilt copy)

- **Claim language (updated 2026-07-24): "100% plasticvrij"** (NL) / "plastic-free" (EN) is the approved claim — seaweed-based carrier (no PVA/microplastics), paper packaging. "Geen plasticafval" also fine.

Shopify-specific rules

- This is an **Online Store 2.0** theme — sections are JSON-defined in `/templates`
- Edit section settings via `sections/*.liquid` files
- Global theme settings live in `config/settings_schema.json` (schema) and `config/settings_data.json` (values)
- Liquid variables use `{{ }}` for output, `{% %}` for logic
- Use `{% render 'snippet-name' %}` to include snippets — not `{% include %}`
- Always use `| escape` on user-generated content to prevent XSS

Responsive Design — Non-Negotiable

Every change must work perfectly on **both mobile and desktop**. This is a core requirement, not an afterthought. - **Mobile-first always** — write CSS starting from the smallest screen and scale up with `min-width` breakpoints - Test all layouts at: 375px (iPhone SE), 390px (iPhone 14), 768px (iPad), 1280px (desktop), 1440px (wide) - Touch targets must be at least 44×44px — buttons, links, nav items - No horizontal scroll on any viewport — every layout must fit within its container - Stacked layouts on mobile, side-by-side on desktop — never force desktop patterns onto small screens - Font sizes: minimum 16px body on mobile (prevents iOS zoom on input focus) - Hero sections: full-width on mobile, reduced padding — never crop important content - Images must use responsive `srcset` / Shopify's `| image_url: width: filters` — never fixed pixel widths - Navigation: hamburger menu on mobile, full nav on desktop — always sticky on scroll

SEO — Built In From the Start

Every page and section must be SEO-ready by default. - All sections that render headings must use semantically correct heading hierarchy (`h1` → `h2` → `h3`) — never skip levels - Every page has exactly **one** `<h1>` — never zero, never more than one - Product and collection pages: use `page_title` and `page_description` Liquid variables for `<title>` and `<meta name="description">` - All images must have descriptive `alt` attributes — use product/section names, never empty alt on meaningful images - Use `{{ canonical_url }}` — already in `theme.liquid`, never remove it - Structured data (JSON-LD): add `Product`, `BreadcrumbList`, and `Organization` schema where appropriate - Internal links must use descriptive anchor text — never "click here" - Avoid duplicate content: use `?sort_by` / `?page=` canonical tags correctly (Shopify handles this natively) - Meta titles: `{{ page_title }}` — `tabble` format, under 60 characters - Meta descriptions: under 155 characters, include a clear value proposition

Performance — Core Web Vitals Green

Every change must protect or improve page speed. Target: Core Web Vitals green on mobile. - **No render-blocking resources in `<head>`** — all scripts use `defer` or are loaded in footer - Stylesheets for non-critical components: use `media="print" onload="this.media='all'"` pattern (already used in `global-style.liquid`) - Images: always use Shopify's image CDN (`| image_url: width: 800`) — never hotlink external images - Use `loading="lazy"` on all images below the fold — `loading="eager"` only on the hero/LCP image - Use `fetchpriority="high"` on the hero image (LCP element) to improve LCP score - Avoid large layout shifts — always set explicit `width` and `height` (or aspect-ratio) on images and media - No third-party scripts loaded synchronously — always async/defer - Inline only truly critical CSS (above-the-fold styles) — keep it minimal - Prefer CSS animations over JS animations for simple effects - Fonts: use `font-display: swap` — Google Fonts already handles this; don't override it - Minimize Liquid logic in loops — avoid complex nested loops inside `for` blocks in sections

CSS / Styling

- Theme uses CSS custom properties (variables) — check `snippets/variable.liquid` before hardcoding values
- Prefer editing/extending existing CSS in `assets/base.css` or adding to `assets/custom.css` over inline styles
- Mobile-first: all new styles start mobile and use `min-width` breakpoints

Translations

- All user-facing strings must have translation keys in `locales/en.default.json` and `locales/nl.json`
- Use `{{ 'key' | t }}` in Liquid for translated strings
- Never hardcode English-only text in section/snippet files

Key Files to Know

File	Purpose
<code>layout/theme.liquid</code>	Global HTML wrapper — header, footer, scripts
<code>sections/header.liquid</code>	Site header + navigation
<code>sections/footer.liquid</code>	Site footer
<code>snippets/css-variables.liquid</code>	All CSS custom property definitions
<code>snippets/product-card.liquid</code>	Reusable product card component
<code>snippets/price-list.liquid</code>	Price display logic (one-time + subscription)
<code>config/settings_schema.json</code>	Theme settings UI definitions
<code>config/settings_data.json</code>	Current theme settings values
<code>locales/en.default.json</code>	English translations

What We're Building

Refer to `PRD.md` (same folder) for full scope.

Phase 1 — Strips (Launch)

1. Apply Tabblie brand colors and fonts throughout the theme
2. Homepage: hero ("Clean our world."), product grid, mission strip, how-it-works, initiative teaser, reviews, email capture
3. Product pages: one-time + subscription toggle, benefit icons, how-to-use section
4. Environmental Initiative page (steunt milieu-initiatieven — no fixed % claim)
5. Bilingual: EN + NL throughout
6. Cart drawer with subscription upsell nudge

Phase 2 — Tablets + Glass Bottles

1. 4 cleaning tablet products, each with identity color on their PDP
2. Starter Kit bundle page (glass bottle + tablet refills)
3. Collection page filterable by product type

Do Not

- Do not remove or break existing Shopify section schema blocks — always extend, don't replace
- Do not hardcode prices or product handles — always use Liquid variables
- Do not commit `config/settings_data.json` changes unless intentional — it contains live store settings
- Do not add new npm/build dependencies — this is a standard Shopify theme with no build pipeline
- Do not use pure black (`#000000`) or pure white (`#FFFFFF`) as primary brand colors

- Do not add eco clichés: no green leaves, no hands holding globes, no "save the planet" guilt copy
